

THE RIGHTS, RESPONSIBILITIES & MINDSET OF THE ARMED CITIZEN

This open forum discussion is designed for those private citizens who have or are considering owning and carrying firearms for home and self defense. Topics of discussion will include a useful and realistic use of force model for the armed citizen, with supporting case law and a review of current legislation. Attendees will leave with a better understanding of deadly force, stress management and discussions will make their future training endeavors much more effective and practical.

The speaker will be Raymond Johansen. Ray has served as a professional firearms and use of force instructor for a number of years. His students represent all facets the military, law enforcement, private security and private citizen communities. As a security consultant, Ray has provided security services for high net worth persons at risk, corporations and designed training curricula for law enforcement agencies and private security firms.
