

# **THE RIGHTS, RESPONSIBILITIES & MINDSET OF THE ARMED CITIZEN**

This open forum discussion is designed for those private citizens who have or are considering owning and carrying firearms for home and self defense. Topics of discussion will include a useful and realistic use of force model for the armed citizen, with supporting case law and a review of current legislation. Attendees will leave with a better understanding of deadly force, stress management and discussions will make their future training endeavors much more effective and practical.

The speaker will be Raymond Johansen. Ray has served as a professional firearms and use of force instructor for a number of years. His students represent all facets the military, law enforcement, private security and private citizen communities. As a security consultant, Ray has provided security services for high net worth persons at risk, corporations and designed training curricula for law enforcement agencies and private security firms.
